Earlier this month, flyers were found around the Bloomington-Normal area, featuring an American flag emblazoned with a swastika (the symbol used by both the Nazis, as well as modern hate movements). It was reported that these flyers were found on the campuses of both Illinois State University, as well as here at Illinois Wesleyan University. On August 20th, an email was sent out by IWU Updates condemning the flyers and asking for students to report them if they are seen.

But you and I, we need to do more.

The flyers stated "We have the White House, Congress, the courts, and the Bloomington Mayor." The flyers then went on to call for a "March on Bloomington" on Aug. 30th, in which they called for any people who were able were to join them as they marched from Miller Park to the Farmers Market in Downtown Bloomington. The flyer stated that the organizers of the march were seeking to end the time of "not our town" (a reference to the BloNo anti-hate movement) and that they were claiming Illinois for "real citizens."

In response, several organizations around town are teaming up with the group "Punks Against Trump," and are counter-protesting this march as it happens.
Counter-protesters will nonviolently be marching in proximity to this group in order to demonstrate that no hate group will act in this way unanswered. It is encouraged that everyone who demonstrates against the hate group brings all they can to drown out their rhetoric: megaphones, instruments, or just your voice. Signs are welcome too!

Meet @ Grossinger Motor Arena, around 6:30 am

Illinois Wesleyan, this is happening in your backyard!
Join us! And stand up to hate!
